

This certifies that

Esther Omuseni

has satisfactorily completed training for the
Transport of Biomedical Material Course
21 December 2020 (40 hrs)

and is certified to package and sign shipping papers for Division 6.1 toxins, Division 6.2 materials (Category A and Category B infectious substances, biological products, and regulated medical waste), dry ice, and limited quantities of Class 3 flammable liquids. This certification is required by DTR 4500.9-R, and meets the hazmat employee training requirements (including general awareness, function specific, safety, and security training) identified in the 49 CFR, the IATA Dangerous Goods Regulations, the IMDG Code, AFMAN 24-604(I), 42 CFR, 9 CFR, 21 CFR, and the USPS Domestic and International Mail Manuals.
